

## Correction to Prediction of Aqueous Solubility, Vapor Pressure and Critical Micelle Concentration for Aquatic Partitioning of Perfluorinated Chemicals

Barun Bhattacharai and Paola Gramatica

*Environ. Sci. Technol.* **2011**, 45 (19), 8120–8128. DOI: 10.1021/es101181g

In Table 1, the column  $\log K_{ow}$  should be  $\log K_{oa}$ .

The values given for 4:2 FTOH, 6:2 FTOH, 8:2 FTOH, and 10:2 FTOH are for  $\log K_{oa}$ , not  $\log K_{ow}$ .
