

Correction to “Fick Diffusion Coefficients of Liquid Mixtures Directly Obtained from Equilibrium Molecular Dynamics”

Xin Liu, Sondre K. Schnell, Jean-Marc Simon, Dick Bedeaux, Signe Kjelstrup, André Bardow, and Thijs J. H. Vlugt*

The Journal of Physical Chemistry B **2011**, *115*, 12921–12929. DOI: 10.1021/jp208360s

In the original manuscript, Figure 6 was printed incorrectly. In fact, it was a direct copy of Figure 10 of the manuscript. Please find below the correct version of Figure 6.

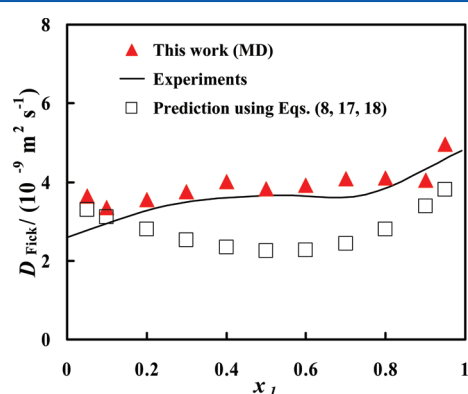

Figure 6. Fick diffusivities in acetone (1)–methanol (2) mixtures at 298 K and 1 atm. Filled symbols represent Fick diffusivities calculated using the computed Γ and MS diffusivities \mathcal{D}_{12} by this work. Open symbols are the predictions of Fick diffusivities using Γ obtained from experiments⁵⁰ and MS diffusivities predicted using the Darken equation (eq 17). Self-diffusivities appearing in the Darken equation are estimated using eq 18. The solid line is the experimental data taken from ref 41.
