Steven Ripp, David E. Nivens, Yeonghee Ahn, Claudia Werner, John Jarrell IV, James P. Easter, Chris D. Cox, Robert S. Burlage, and Gary S. Sayler*: Controlled Field Release of a Bioluminescent Genetically Engineered Microorganism for Bioremediation Process Monitoring and Control

An error occurred in Figure 6 in which the symbols in the figure legend were reversed. The correct legend for Figure 6 should read as follows:

FIGURE 6. *P. fluorescens* HK44 population dynamics in the PAH-contaminated lysimeter replicates (■) (error bars determined as for Figure 2) and uncontaminated lysimeter replicates (□) (error bars determined as for Figure 3) as confirmed by colony hybridization.
