Ramesh Ravella, Sridhar Komarneni and Carmen Enid Martinez*: Highly Charged Swelling Mica-Type Clays for Selective Cu Exchange

Figure 1b in this paper is incorrect and it should be replaced with the following correct Figure 1b.

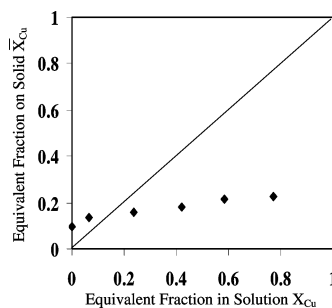

FIGURE 1. (b) $Mg^{2+} \rightarrow Cu^{2+}$ with Mg (melt) saturated Na-4-mica.

Giorgia Quadri, Xiaosong Chen, James W. Jawitz, Fulvia Tambone, Pierluigi Genevini, Franco Faoro, and Fabrizio Adani *: Biobased Surfactant-Like Molecules from Organic Wastes: The Effect of Waste Composition and Composting Process on Surfactant Properties and on the Ability to Solubilize Tetrachloroethene (PCE)

Tables S3 and S4 in the Supporting Information contained errors. The corrected tables are now present in the SI file.

Supporting Information Available

Tables S1–S6, Figures S1 and S2, and refs S1–S5 are shown. This material is available free of charge via the Internet at <http://pubs.acs.org>.

Ho-Won Chang, Youboong Sung, Kyoung-Ho Kim, Young-Do Nam, Seong Woon Roh, Che Ok Jeon, and Jin-Woo Bae*: Development of Microbial Genome-Probing Microarrays using Digital Multiple Displacement Amplification of Uncultivated Microbial Single Cells

In first line of third paragraph, “digital PCR” should be “digital MDA”.

In first line of fourth paragraph, the sentence “In this study, we have uncultured microbes from DCM-dechlorinating contaminated sediments...” should be “In this study, we have amplified genomic material of uncultured microbes from DCM-dechlorinating contaminated sediments...”.

The last sentence of the fourth paragraph should be deleted: “Compared to the metagenomics, the power of our approach lies in the ability to detect and obtain the functional genes and phylogenetic information of uncultured microorganisms directly, even when the metabolic and phylogenetic markers are located far apart on the chromosome”.

Xiaowei Zhang,* Markus Hecker, Amber R. Tompsett, June-woo Park, Paul D. Jones, John Newsted, Doris Au, Richard Kong, Rudolf S. S. Wu, and John P. Giesy: Responses of the Medaka HPG Axis PCR Array and Reproduction to Prochloraz and Ketoconazole

Inadvertently the names and affiliations of two authors, Amber R. Tompsett and June-woo Park, were omitted from the final version of the manuscript submitted by the corresponding author. The corrected author list should read: Zhang, Xiaowei; Hecker, Markus; Tompsett, Amber R. (Department of Veterinary Biomedical Sciences and Toxicology Centre, University of Saskatchewan Saskatoon, SK, Canada); Park, June-woo (Department of Zoology, National Food Safety and Toxicology Center and Center for Integrative Toxicology, Michigan State University, East Lansing, MI) Jones, Paul D.; Newsted, John L.; Au, Doris; Kong, Richard; Wu, Rudolf S. S.; Giesy, John P.

In addition, it has come to our attention that there are several typographical errors.

Page 6762, affiliation line 7 should read “Veterinary Biomedical Sciences” not “Biomedical Veterinary Sciences”.

Page 6762, line 4 in the abstract should read “(*Oryzias latipes*)” not “(*Oryzias latipe*)”.

Page 6765, line 3 in the first paragraph should read “Exposure to...” not “Expression to...”.

Page 6768, line 3 in Acknowledgment should read “...M.H., J.L.N., and P.D.J.” not “...M.H., and P.D.J”.
