Paras Trivedi\* and Lisa Axe: Predicting Divalent Metal Sorption to Hydrous Al, Fe, and Mn Oxides

Page 1783. The first sentence “Overall, diffusivities decrease in the order HAO > HFO > HMO, which is the reverse order of their adsorption enthalpies (11, 12).” should read as “Overall, for a specific oxide, diffusivities decrease in the reverse order of the adsorption enthalpies (11, 12).”
