Eric Braekevelt, Gregg T. Tomy, and Gary A. Stern\*: Comparison of an Individual Congener Standard and a Technical Mixture for the Quantification of Toxaphene in Environmental Matrices by HRGC/ECNI-HRMS

Page 3517. In Figure 2B, the  $C_{10}H_{11}Cl_7$  homologue group is mislabeled. The arrow labeled B7-495 is actually B7-1450. The arrow labeled B7-515 is both B7-515 and B7-495. The arrow labeled B7-1450 does not point to anything and should be omitted.
