Ind. Eng. Chem. Res. **2014**, 53, 8035–8044 (DOI: 10.1021/ie404314q)

We recently published a paper entitled “Electrical Conductivity, Isothermal Stability, and Ammonia-Sensing Performance of Newly Synthesized and Characterized Organic–Inorganic Polycarbazole–Titanium Dioxide Nanocomposite”. We provide the following erratum for the above-mentioned paper.

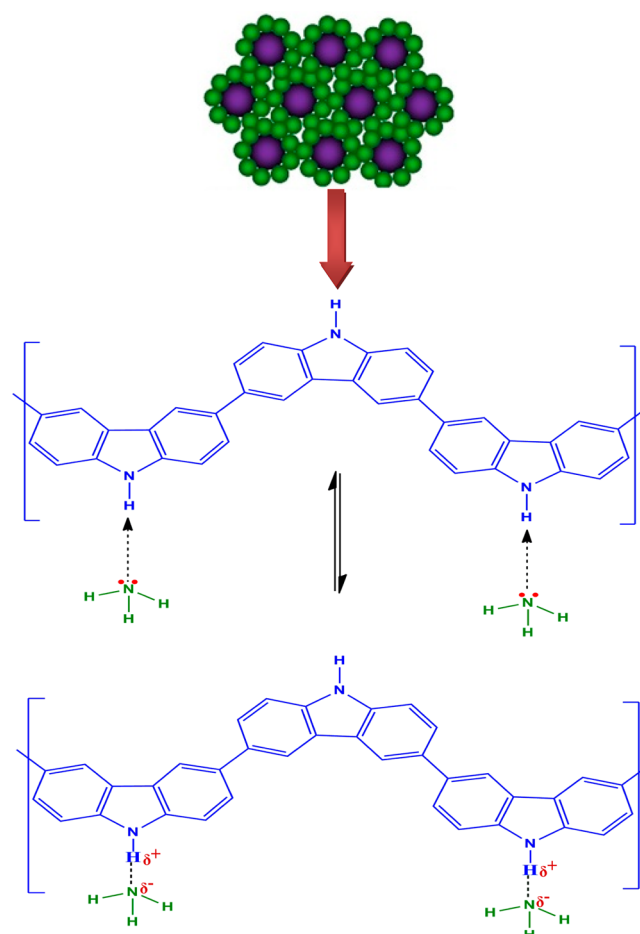

Page 8036. A corrected version of Scheme 1 has been presented below:

Scheme 1. Schematic Diagram of the Formation Mechanism of (a) PCz and (b) PCz/TiO₂ Nanocomposite

Page 8041. A corrected version of Scheme 2 has been presented below:

Scheme 2. Schematic Diagram Showing the Chemisorption (Reversible) Interaction of PCz with Ammonia in the PCz-TiO₂ Nanocomposite
