

2002, Volume 36, Pages 4074–4080

Torsten C. Schmidt,* Peter Kleinert, Caroline Stengel, Kai-Uwe Goss, and Stefan B. Haderlein: Polar Fuel Constituents: Compound Identification and Equilibrium Partitioning between Nonaqueous Phase Liquids and Water

Page 4079. Equation 9 is incorrectly given. The correct equation is

$$K_{\text{sw}} = \sum_{j=1}^I K_{\text{sw}}(j) \cdot n_s(j)$$

Calculated values in tables and figures are not affected since the correct equation was used there. We thank J. Samuel Arey for bringing this error to our attention.
