Generalized Cubic Equation of State Adjusted to the Virial Coefficients of Real Gases and Its Prediction of Auxiliary Thermodynamic Properties. Polishuk Ilya

Page 10710. A typographical error was made in eq 13. As initially published, this equation read

$$\alpha = \frac{1}{1 + m(\sqrt{T_r} - 1)^{2/3}}$$

The equation should read

$$\alpha = \frac{1}{1 + m(T_r^{3/2} - 1)}$$

I thank Professor Milind Joshipura of Nirma University (Gujarat, India) for kindly drawing my attention to this error in the original paper.
