

Correction to “Behavior of Hydrophobic Polyelectrolyte Solution in Mixed Aqueous/Organic Solvents Revealed by Neutron Scattering and Viscosimetry”

Wafa Essafi,* Amira Abdelli, Gada Bouajila, and François Boué*

J. Phys. Chem. B **2012**, *116*, 13525–13537. DOI: 10.1021/jp3085815

In this erratum, we wish to make clear the value of the exponent in the dependence of q^* with the dielectric constant ϵ . Equation 5, which specifies $q^* \sim \epsilon^{+1/7}$ is right. Conversely, in the fourth line of the paragraph under eq 5, the expression $q^* \sim \epsilon^{-1/7}$ is wrong; the minus sign should be removed.

We also specify (section III-1-A, first paragraph, sixth line) that the number of units per chain, equal to 2838, is a weight average number.
