

Correction to Integrating Address Geocoding, Land Use Regression, and Spatiotemporal Geostatistical Estimation for Groundwater Tetrachloroethylene

Kyle P. Messier, Yasuyuki Akita, and Marc L. Serre*

Department of Environmental Science and Engineering, Gillings School of Global Public Health, University of North Carolina, Chapel Hill, NC

Environ. Sci. Technol. **2012**, 46, 2772–2780; DOI: 10.1021/es203152a

On page 2774, eq 1 was missing the sigma summation symbol. Equation 1 is written as follows:

$$X_i^{(l)} = \sum_{j=1}^n C_{0j} \exp\left(-3 * \frac{D_{ij}}{a_j}\right) \quad (1)$$

This correction does not impact the original findings since this was the equation used in the analysis.
