

Correction to NMR Analyses and Diffusion Coefficient Determination of Minor Constitutents of Olive Oil: Combined Experimental and Theoretical Studies

Ahmet Altun and Salim Ok*

J. Chem. Eng. Data **2012**, *57*, 2619–2624. DOI: 10.1021/je300804s

Corrections for the original manuscript are as follows.

On page 2622, the unit for diffusion coefficient written erroneously as $\text{cm}^2 \cdot \text{s}^{-1}$ needs to be changed into $\text{m}^2 \cdot \text{s}^{-1}$.

On page 2623, Table 1, in the heading, again the unit for the diffusion coefficient written erroneously as $\text{cm}^2 \cdot \text{s}^{-1}$ needs to be changed into $\text{m}^2 \cdot \text{s}^{-1}$.
