

Gasoline from Woody Biomass via Thermochemical Gasification, Methanol Synthesis, and Methanol-to-Gasoline Technologies: A Technoeconomic Analysis

Steven D. Phillips, Joan K. Tarud, Mary J. Bidy, and Abhijit Dutta

Ind. Eng. Chem. Res. **2011**, *50*, 11734–11745

Because of a production error, the units of the x - and y -axes in the middle of Figure 6 in the originally published paper were presented incorrectly (as decimal fractions, rather than as percentages). The correct version of Figure 6 appears below.

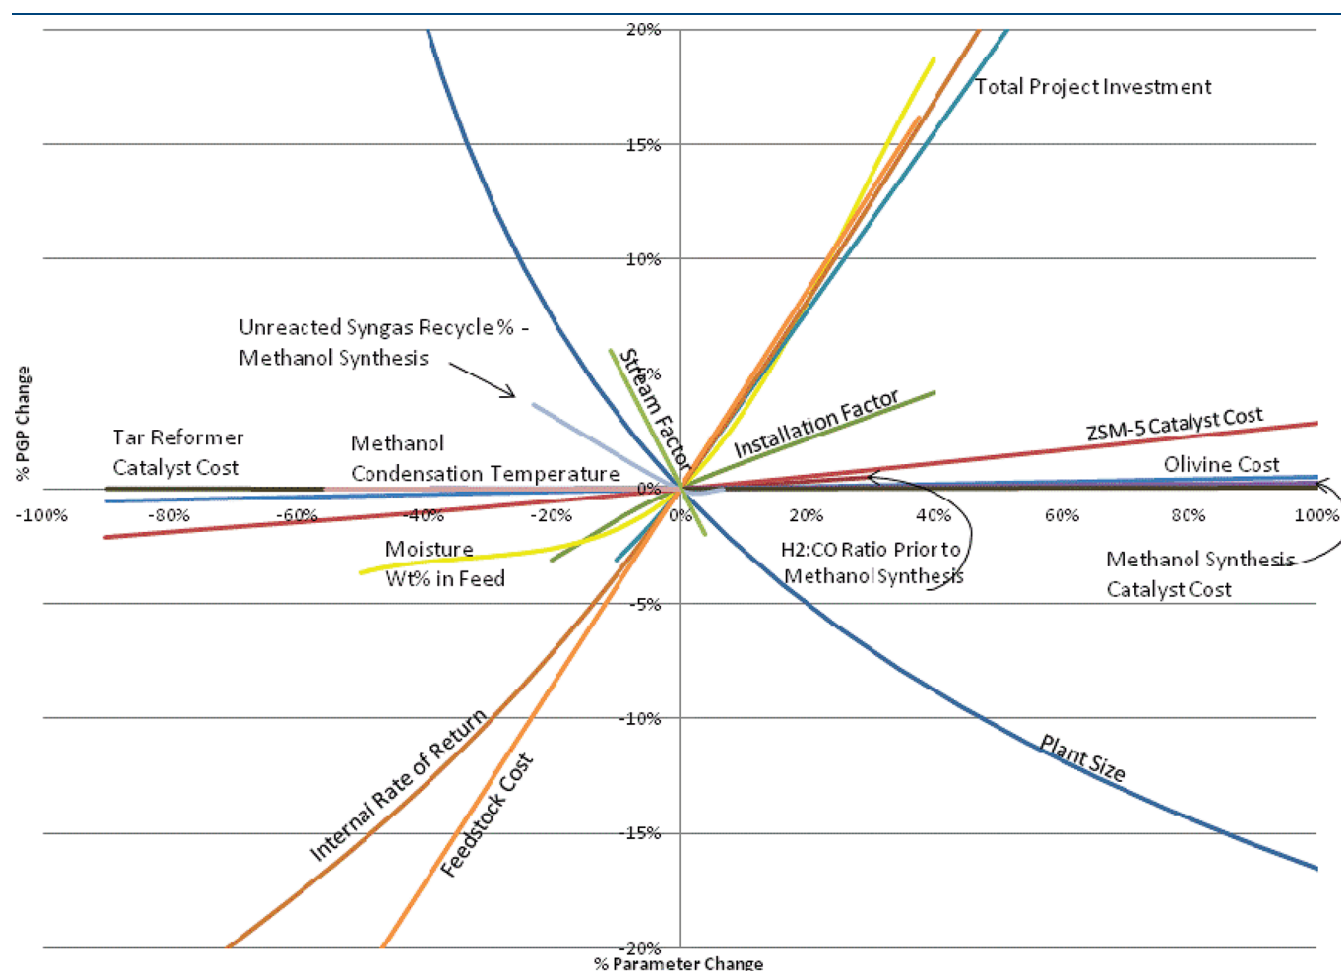

Figure 6. Sensitivity analysis for the biomass-to-gasoline process.
