

Correction to Degradation, Phytoprotection and Phytoremediation of Phenanthrene by Endophyte *Pseudomonas putida*, PD1

Zareen Khan, David Roman, Trent Kintz, May delas Alas, Raymond Yap, and Sharon Doty*

Environ. Sci. Technol. **2014**, *48*, 12221–12228; DOI: 10.1021/es503880t.

Several errors in our recently published paper are corrected as follows: Page 12223, section 3.1, “three” should be “four”, add “SX61” after WW11, change “three poplar” to “two poplar”, delete “SX61”. Page 12224, section 3.2, “lactose broth” should be “LB”. Page 12224, Figure 3, Y axis, “ug/kg” should be “ug/mL”. Page 12226, change the sentence “it did not seem to degrade it in planta during the time frame of this experiment” to “there was some phenanthrene remaining in the tissues”.
