

Correction to “Control of Crystal Morphology in Monodisperse Polyfluorenes by Solvent and Molecular Weight”

Chengfang Liu, Qilin Wang, Hongkun Tian, Jian Liu, Yanhou Geng, and Donghang Yan*

J. Phys. Chem. B **2013**, *117* (29), 8880–8886. DOI: 10.1021/jp401261u

During the final submission of high-resolution figures for this manuscript's publication, the image in Figure 1a was incorrectly

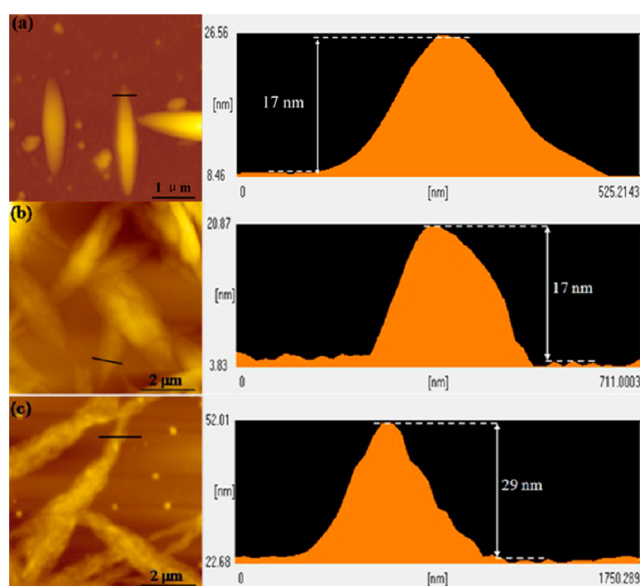

Figure 1. AFM height images and height profiles of lenticular crystals of F16 (a), F32 (b), and F64 (c).

presented. The correct version of Figure 1 can be seen below. The only change is Figure 1a, and the rest of the figures are identical to the published version. We apologize for any confusion that it has caused.
