The value of  $\Delta U_{\text{OA}}/(\text{kJ}\cdot\text{mol}^{-1})$  for  $\text{D}_5$  in Table 3 on page 140<sup>1</sup> is incorrectly given as  $-48.7$  (3.4). The correct value is  $-47.0$  (3.4). This correction has no effect on any other data in the original paper including the calculated  $\log K_{\text{OA}}$  at 25 °C presented in Table 3. However, if the incorrect  $\Delta U_{\text{OA}}$  value is used,  $\log K_{\text{OA}}$  of  $\text{D}_5$  at 25 °C may be overestimated by 0.29 log units.
