

## ADDITIONS AND CORRECTIONS

---

**A New Reference State for the Calculation of Activity Coefficients: Comment on the Paper “Molecular Theory of the Activity Coefficient and Their Reference Fugacities at the Supercritical State”.** Jaime Wisniak\* and Hugo Segura.

Volume 47, Issue 15, Page 5758. The correct name of the first author is Jaime Wisniak; in the published version, the last name was misspelled (as Wisnia).

Volume 47, Issue 15, Page 5758. The correct definition of the partial second virial coefficient  $\bar{B}_i$  (given in parentheses in the text between eqs 6 and 7) should be  $\bar{B}_i = 2\sum_j y_j B_{ji} - \sum_j \sum_i y_j y_i B_{ji}$ .
