Correction to Accelerated Particle-Based Target Capture—The Roles of Volume Transport and Near-Surface Alignment

Alexander van Reenen,* Arthur M. de Jong, and Menno W. J. Prins *J. Phys. Chem. B* **2013**, *117* (5), pp 1210–1218 DOI: 10.1021/jp307862h

The correct representation of eqs 1 and 4 is

$$FT + MC \underset{k_{sep}}{\overset{k_{enc}}{\longleftrightarrow}} FT \cdots MC \underset{k_{-c}}{\overset{k_c}{\longleftrightarrow}} FTMC$$
 (1)

$$FT + MC \underset{k_{\text{sep}}}{\overset{k_{\text{enc}}}{\leftarrow}} FT \parallel MC \underset{k_{\text{misalign}}}{\overset{k_{\text{align}}}{\leftarrow}} FT \cdots MC \underset{k_{-c}}{\overset{k_{c}}{\leftarrow}} FTMC$$

$$(4)$$
